138 City Manager Rick Crowley indicated that as of today, the NTMWD has begun its approximately 30 day maintenance program (not adding ammonia to the disinfection program, continuing to provide the same 139 140 amount of chlorine). Any questions that the public may have may be addressed by the city manager, the 141 assistant city managers, the supervisor over water operations, or the city engineer. Mayor Pruitt clarified 142 that the same amount of chlorine will be present in the city's water system; however, the smell may be 143 more noticeable to residents/water users over the course of the next thirty days or so. Mayor Pruitt 144 briefly mentioned that the city council and staff recently attended "Rockwall County Days" in Austin to meet with our legislators, and it was a successful visit. He went on to point out that the City passed an 145 146 order on tonight's Consent Agenda to cancel the May election since none of the incumbents drew any 147 opponents. Also, the school district is able to cancel its election as well. So, those monies will be saved this year. 148
